### RAMSA Partner Paul L. Whalen to Lead AIA Conference Tour of Billionaire's Row

On Wednesday June 20, 2018, at 2:00 PM, during the June 21-23 AIA Conference on Architecture in New York City, RAMSA Partner **Paul L. Whalen** will lead a tour of new apartment towers now rising along Central Park's southern edge, including the Robert A.M. Stern Architects-designed **15 Central Park West, 520 Park Avenue, and 220 Central Park South**, and others by Christian de Portzamparc, Adrian Smith Gordon Gill Architects, Rafael Viñoly, SHoP, and Jean Nouvel. The tour will discuss the supertall residential tower as a 21st-century type made possible by remarkable engineering and a real estate market that supports the investment these buildings require.
