RAMSA Partner Paul Whalen to Speak for the Design Leadership Network

RAMSA Partner [Paul L. Whalen](#) will speak at an event hosted by Jeffrey Bennett, Vice President, Tiffany & Co.; and Jean-Marc Belliache, Senior Vice President, Tiffany & Co.; and The Design Leadership Network at Tiffany & Co.'s flagship store at Fifth Avenue and 57th Street.

Mr. Whalen will discuss the design of the [Tiffany Mezzanine Jewel Salon](#), which offers special customers a place to view Tiffany's important jewelry in a private setting.

The Design Leadership Network (DLN) was formed to promote growth within the design industry through education, inspiration, community, and connectivity. An objective for DLN events such as this is to provide unique, behind-the-scenes opportunities for DLN Members – both informative and educational as well as entertaining – allowing DLN Members to interact and network within an amazing environment not typically accessible to the general public. For more information about DLN, please [click here](#).
